← SAFETY ZONE:

Place all copy within the safety zone. Tip: Keep copy at least .125" away from all trims and folds for a balanced appearance.

← **TRIM LINE:** The final trim of the document.

← **BLEED:** If your document has content (graphics, pictures, etc) that reaches the trim line the content must extend all the way to the outer edge of the Grey Bleed Box.

The diagram illustrates a document layout with three distinct regions. The outermost region is a solid grey border representing the bleed area. Inside this is a blue dashed line representing the trim line. The innermost region is a green dashed line representing the safety zone. Arrows point from the text labels to their respective lines in the diagram.
